PROFESSIONAL SUMMARY

UI Designer and Front-End Developer with **17 years of design experience**. I bridge the gap between design thinking and clean front-end execution. I started in 2008 as a graphic designer, mastering layout, typography, and visual hierarchy. Today, I use AI-assisted tools like Google Antigravity to build interfaces in **React, Next.js, and TypeScript**, shipping production-quality work at unprecedented speed.

CORE SKILLS

UI/UX DESIGN
Figma, Design Systems, Wireframing, Prototyping

AI-ASSISTED DEVELOPMENT
Google Antigravity, Prompt Engineering, Rapid Prototyping

VISUAL DESIGN & MOTION
After Effects, Premier Pro, AI Video Editors

FRONT-END DEVELOPMENT
React, Next.js, TypeScript, Tailwind CSS, JavaScript (ES6+)

VISUAL & GRAPHIC DESIGN
Adobe Illustrator, Photoshop, InDesign, Brand Identity, Infographics.

PROFESSIONAL EXPERIENCE

HR.com
2018 – Present

UI Designer & Front-End Developer (Remote)

- Led the end-to-end design and development of complex HR technology interfaces, improving user engagement and task completion rates across core products.
- Developed and maintained a scalable internal Design System, ensuring visual consistency across multiple web platforms and reducing design-to-development handoff time.
- Collaborated closely with product managers and backend engineers to translate business
- Optimized front-end performance and accessibility (WCAG) for high-traffic web applications used by thousands of HR professionals globally.

SELECTED PROJECTS

HR West 2026 Redesign

Led the visual identity and web architecture for the flagship conference platform. Used Next.js and Tailwind to create a high-performance, mobile-first registration and scheduling portal.

HireFlow ATS Dashboard

Designed a data-dense Applicant Tracking System dashboard focused on clarity. Implemented complex filtering and visualization components using React and TypeScript.

HR.com Podcast Platform

Developed a dynamic podcast platform integrated into the existing CMS, featuring a clean UI that automatically generates episode landing pages from centralized data.
